

## **Raw leather And Salambor**

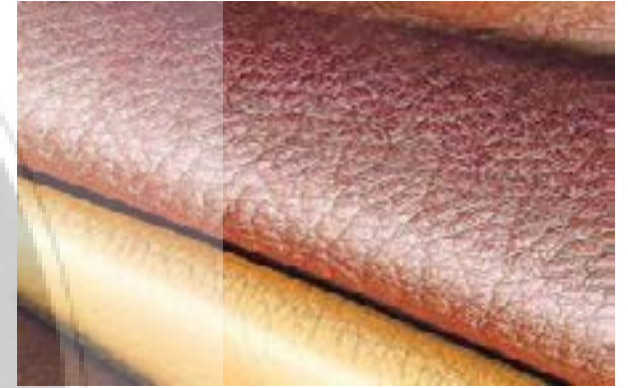

**Leather is a durable and flexible material created by tanning animal rawhide and skin, often cattle hide. It can be produced at manufacturing scales ranging from cottage industry to heavy industry. People use leather to make various goods including clothing (e.g., shoes, hats, jackets, skirts, trousers, and belts), bookbinding, leather wallpaper, and as a furniture covering.**

**It is produced in a wide variety of types and styles, decorated by a wide range of techniques.**

**We can provide these kind of products in forms of raw leather and salambor.**

**Kinds: Cow, Sheep, Goat, Ostrich**
